

## **2x America's Cup winner Peter Isler presents: How to Win Races with Expedition Software – Sunday Feb 23 @ Lakewood YC, TX**

Step into the 2020's – Learn how to use Expedition Navigation and Race Software to improve your racing performance. World Class sailor, Peter Isler will spend a day providing introductory training on how to use this powerful software.

No previous Expedition experience is necessary. This course is not just for navigators and your boat's "IT" specialist. Tacticians, skippers and members of the speed team all benefit from understanding the type of information Expedition provides.

A free trial copy of Expedition will be provided to all students to load and practice on their laptop (PC's only). Spend a day doing hands on training with an expert!

Learn how Expedition can help in:

- Starting – hitting the line at full speed
- Buoy Racing strategy – laylines, time to mark and next leg wind angles
- Coastal and Random leg navigation and racing
- Weather analysis and weather routing
- Instrument tuning
- Monitoring your performance
- Targets, Polars and Sail Charts
- Post race data analysis
- And much more!

Sign up early – the class size will be limited to optimize learning

Where: Lakewood Yacht Club

Harbor Room

2322 Lakewood Yacht Club Drive

Seabrook, Texas

[www.lakewoodyachtclub.com](http://www.lakewoodyachtclub.com)
